

## Colorado EMS Primary Instructor Course Learning: What Works for You?

Think of a time when you were a student/learner and you were very successful.

What about that learning experience worked for you? What attitudes or characteristics did the curriculum or instructor have that enabled your success? What one thing from that experience did you discover about how you learn best?

In the space below, write a short description of this experience. When you are finished, list some characteristics or attributes (words or phrases) that best describe what works best for you as a learner.
