Course Description:

The one-day AMLS instructor course is designed for health care providers who have training in the treatment of medical emergencies and who hold a current AMLS provider card. This course reviews the cases taught in AMLS from an instructor point of view. Teaching strategies and adult learning is discussed and review in group discussion and problem solving scenarios. The AMLS course structure and course preparation will be discussed. A teaching practicum is required and must be completed within 90 days of the instructor course.

Objectives:

- learn to teach the AMLS cases
- understand adult learning styles
- develop teaching strategies
- understand the American Heart Association philosophy

CEUs: 4 hours

Required information:

Students must be a current AMLS cardholder and have a letter of recommendation from an AMLS course director to be eligible to take the instructor course.

Students must be currently certified as an EMT Intermediate, EMT Paramedic, Nurse, Physician assistant, or MD.

The pretest must be successfully passed.

Evaluation:
